

### REMARKS

A telephone interview was conducted on September 22, 2009. The participants were Examiner Bitar and the undersigned. During the interview, the Examiner proposed claim amendments to place this application in condition for allowance, and agreement was reached in substance as to these amendments. However, the Examiner's Amendment, while accurately reflecting the agreement reached as to claim 8, did not accurately reflected the language agreed to with respect to claim 9. The agreed changes to claim 9 are set forth above. First, it is noted that the Examiner's amendment included several punctuation errors such as in lines 8 and 10 which include an extra space before the comma. In addition, the fourth paragraph should recite: "a picture-taking apparatus, fixed rigidly to the front of said flying body in such a way that said apparatus turns with said flying body about said longitudinal axis, said apparatus being configured to take, during each revolution of the rotation of said flying body about said longitudinal axis, several pictures of said scene each corresponding to a predetermined angular position of said flying body about said longitudinal axis, so that contours of said several pictures are inclined in mutually differing manners and so that, in each picture, the image of said scene and said contour occupy a relative position which depends on said corresponding predetermined angular position of said flying body and which is different from that of the other pictures and to determine, among said pictures, a reference picture in which said relative position between the image of the scene and the contour is considered to be a relative reference position."

Accordingly, it is submitted that all pending claims are directed to allowable subject matter, and a notice of allowance is respectfully requested.

If any issues remain which may best be resolved through a telephone communication, the examiner is requested to telephone the undersigned at the local Washington, D.C. telephone number listed below.

Respectfully submitted,

/James Edward Ledbetter/
